Site is a low structure in a dusty, flat, dry area, with water somewhere nearby. The structure is angular and squared off, boxy, ~~quite~~ old, its ~~edges~~ crumbly. Inside the structure in current time, people in white (workers) are ~~moving something heavy~~. A person is ~~standing guard~~ by the exit.

Associated with the place in the recent past is a man. He was sick, tired, very sad and had a ~~feeling of hopelessness~~. He looks a lot older than he is, his eyes are hollow, deeply inset and are tired and sad. He is very, very thin. (aol POW/concentration camp victim).

Yesterday or the day before (3-4 FEB 88) he ~~was killed~~. He knew he was ~~about to die~~ and was sad, horrified and filled with hopelessness. Those who killed him believed he deserved to die (aol war crimes).
